

## Why is there a limit on village permits?

Mt Buller's Village is a special place that we all love. As it's popularity grows, so does the pressure on infrastructure, like parking bays. Village permits are limited by supply of parking bays. Ambience and safety are balanced with managing demand on transport and effective snow clearing.

## Who is eligible to apply?

Applicants must satisfy ONE of the following:

- Be an apartment or parking bay owner,
- Be a current lodge / club member,
- Operate a business within the Village (commercial lease holder), or
- Have leased an apartment or club for the entire season.

For some permit types, other criteria may apply.

## What types of permits are there and what do they cost?

TYPE	DESCRIPTION	STANDARD PRICE
On-site	<ul style="list-style-type: none"> <li>• Parking bays within the specified site boundaries.</li> </ul>	<b>\$820</b>
Roadside	<ul style="list-style-type: none"> <li>• Parking spaces outside specified site boundaries.</li> </ul>	<b>\$1,220</b>
Access	<ul style="list-style-type: none"> <li>• Allows 30-minute passenger and luggage drop off/collection at a specified site. After drop off, the vehicle must park roadside between Tip Corner and the CSIR ramp or in an overnight car park, as directed by Parking Attendants.</li> <li>• Drivers entitled to complimentary transfers to/from the Village Square during ride share operating hours (formerly known as valet taxi).</li> </ul>	<b>\$765</b>
On-site Transferable	<ul style="list-style-type: none"> <li>• Located in a designated and self-contained car park with a managed system of entry and exit (i.e. lockup garage).</li> <li>• Must be visible on the vehicle while the vehicle is at Mt. Buller.</li> <li>• The transfer of the permit between vehicles will be the sole responsibility of the permit holder.</li> </ul>	<b>\$1,450</b>

## Where do I park when in the Village?

Parking is only available in your nominated bay. Vehicles must be entirely contained within the parking bay to avoid obstructing the flow of traffic, snow clearing or waste collection. Parking infringements will be issued to vehicles located in unauthorized bays.

If your allocated parking bay is unavailable or you're an access permit holder, you can park roadside between Tip Corner and the CSIR ramp or in an overnight car park, as directed by Parking Attendants.

## Can I drive around the Village?

No, driving around the Village (shopping, ski school, restaurants for example) is prohibited and infringements may be issued.

## Can I provide transport to other guests or their luggage to/from the car park?

Only if you are the holder of a guest transfer permit. Conditions apply.

## Are there any additional requirements for drivers?

Capable of fitting wheel chains and driving safely in snow and icy conditions;  
Must adhere to directions by Resort Management staff to fit chains when required  
Learner drivers not permitted

## What vehicle requirements are there?

- 4WD/AWD vehicle
- A minimum ground clearance of 185mm is required plus:
  - › be able to be fitted with wheel chains;
  - › carrying appropriately sized, diamond wheel chains (wheel socks not permitted);
- Tyres suitable for use in snowy and icy conditions experienced in extreme alpine environments:

**Mud and snow tyres are the minimum specification (with the M + S symbol pictured above)**

**Snow tyres provide even better traction and are highly recommended (with the mountain/snowflake symbol pictured above)**

If tyres do not have either of these markings, a letter (on letterhead) from a tyre manufacturer or reputable tyre retailer stating the tyres fitted are suitable for use in extreme alpine environments and provide equivalent performance in snowy and icy conditions to M+S or snow tyres, is required. These tyres are not suitable:

**Highway Terrain**

**Mud Terrain**

## Do tyres get checked?

Yes, prior to issuing the permit. Options for tyre checking are advised when a permit has been allocated.

## Can I tow a trailer into the Village?

Trailers are not permitted to enter the Village without prior approval from Resort Management.

## Handy Hints

- \* Consider completing a training program on driving in snow and icy conditions.
- \* Watch Snowsafe Australia's video on **snow safe driving**.
