

## MT BULLER VILLAGE VEHICLE CONDITIONS

Driving in the Mt Buller Village can be dangerous, as the roads can still have a film of snow or ice even after they have been cleared. Therefore the following recommendations and conditions apply to anyone seeking a Village vehicle permit:

- a. Consider completing a training program on driving in snow and icy conditions.
- b. Watch the attached video prepared by Snowsafe Australia on [snow safe driving](#).
- c. You should have Mud & Snow tyres as a minimum, which have the M+S symbol (below left).
- d. Snow tyres provide even better traction and are highly recommended. These are specifically made for snow and have a standard mountain / snowflake symbol (below right).

OR

- e. If you do not have tyres with either of these markings, then you must provide a letter on letterhead from a tyre manufacturer or reputable tyre retailer attesting that the tyres fitted to your vehicle are suitable for use in an extreme alpine environment and are expected to provide equivalent performance on snow and ice to M+S or Snow tyres.
- f. Use brakes gently and drive slowly. Accelerate gently to avoid wheel spin and avoid unnecessary gear changes. Use first or second gear on level ground before ascending or descending hills. If you lose traction, try to control your car by steering rather than braking.
- g. Your vehicle must:
  - be able to be fitted with wheel chains;
  - carry appropriately sized, diamond wheel chains;
  - only be driven by people who know how to fit these wheel chains and who have the ability to drive safely on snow & ice-covered roads;
  - only be driven between the mountain carparks and your accommodation / allocated parking spot;
  - not be driven around the village (eg shopping, dining, race club, ski school);
  - not be used to transport guests and their luggage to & from the carparks;
  - If an Access Permit - not remain within the village for more than 30 minutes

If have a Village Access permit or your allocated parking spot is unavailable, you will only be able to park roadside between Tip Corner and the CSIR ramp, or in an overnight car park as directed by Parking Attendants. We are pleased to advise that drivers of these vehicles will be provided with complimentary transfers to and from the Village Square during Valet taxi operating hours.
